## Emergency Medical Teams Health care surge capacity during emergencies

### EMT Definition

"Groups of health professionals and supporting staff, aiming to provide <u>direct</u> <u>clinical care</u> to populations affected by disasters or outbreaks and emergencies as <u>surge capacity</u> to support the local health system. They include governmental (both civilian and military) and non-governmental teams."

## EMT Quality Management Framework

Party Hold

#### Global EMT Classification

- ✓ Improve quality, timeliness & predictability EMTs deployed in emergencies
- ✓ Creation of a Global Registry of EMTs willing to respond to emergencies & enhance coordination
- ✓ Facilitate operationalization of minimum standards by EMTs
- ✓ Minimize burden & support affected Health Systems

## Classification process

#### **GENERAL PROCESS**

EM

Alexandra Harris

Total percentage is calculated based on the following rate of completed pathway

1 Expression of 2 3 Interest Self Assessment Assignment	4 Mentorship Process	5 Pre- Verification Visit	6 Verification Visit	7 International Registration
--	----------------------------	------------------------------------	----------------------------	---------------------------------

5%	5%	5%	60% 1	10% :	10%	5%

Aleste Health

## **EMERGENCY MEDICAL TEAMS IN COVID-19**

Over one hundred and fifty EMTs and focal points worldwide are working closely with the EMT Secretariat which is continuously engaged in monitoring, guiding, and facilitating national and international COVID-19 response operations.

### Lessons learned

- Constraints with host server and CMS
- Resources required to maintain and sustain
- Access for the general public vs network
- Information update

#### Steps forward

- Automated alert system embedded in EMT website
- Roster alert for EMT surge experts
- Internal system for complete EMT deployment cycle
- HQ dashboard for EMT classification and operations
- Emergency dashboard for coordination cells
- EMT country profile database

# Thank you Any questions?
