On the occasion of the 7th UN Biennial Meeting of States of the Programme of Action (PoA) on Small Arms and Light Weapons, this side event will provide an opportunity to take stock of the review processes of the main global arms control instruments—the PoA, the Arms Trade Treaty and the Firearm Protocol, highlighting the connections between the implementation and monitoring processes of these instruments and how they might support each other. This theme is timely as 2021 marks the 20th anniversary of the PoA and the 15th anniversary of the entry into force of the Firearms Protocol.
