Proposal by Indonesia on the issue of Nuclear Naval Propulsion on the draft report of Main Committee II

Proposed amendment of Paragraph 29:

29. The Conference notes greater interest on the matter of naval nuclear propulsion as it raises important questions about the applicability and effectiveness of the relevant provisions of the safeguards agreements as well as the integrity of the non-proliferation regime. The Conference, therefore, calls for States Parties to the NPT to develop a constructive approach with a view to elaborate mechanism for monitoring and verification of nuclear naval propulsion program in a comprehensive and universal manner.

Additional bullet in the section of the forward-looking:

The Conference underscores the urgency for an inclusive, accountable, transparent and constructive deliberation within the framework of NPT and IAEA on the matter of nuclear naval propulsion, to protect the integrity of the nuclear safeguards and non-proliferation regime.
